Restaurant POS

See how a single order moves from your counter to the kitchen, the bill and your sales report.

What you'll see in the demo

Take an order	Use items from your menu to enter a dine-in or takeaway order.
Send it to the kitchen	See how the kitchen receives the ticket and tracks preparation.
Close the bill	Record a payment, print a receipt and find the sale in the report.

Already using a POS?

We can review a sample export, agree what can move, and test one outlet before you switch. Your quote shows setup, ongoing support and any hardware or integrations you choose.

Book a 30-minute demo

Reply DEMO with your outlet count and the workflow you'd like to see. Share a few menu items and we'll use them in the demo.
